

## **ARTSA members take the lead with INVENIO's comprehensive Software, Recruitment and Design expertise**

INVENIO (Invenio Pty Ltd) is a pioneering business solutions provider with 30 years of experience in Australia, delivering world-class services in Product Lifecycle Management, Business Services and Recruitment that caters to a wide range of sectors with specialisations in **Transportation**, including heavy industry, trucks and buses and trailers, and other manufacturing industry sectors.

Part of a global group, INVENIO was the first international branch of Invenio Group AG (Germany) that has now grown into a robust organisation with a team of over 300 talented staff in ANZ specialising in software solutions, recruitment, and design services. Now an **ARTSA approved solution provider**, our experience and expertise in these three areas enable us to provide the most comprehensive solutions to ARTSA members.

As **ARTSA's preferred SOLIDWORKS provider** and a Dassault Systèmes Certified Education Partner, INVENIO is proud to offer member only SOLIDWORKS courses. Recruitment and Contractor Management services will also be provided at **member only prices**.

### **MAXIMISING DESIGN AND MANUFACTURING EFFICIENCY THROUGH SOFTWARE**

Our dedication to constantly evolving to meet the changing needs of the market has earned INVENIO Dassault Systèmes **Gold Partner** status for 2018 and 2019, as well as the title of "**Top New Reseller of the Year**" for SOLIDWORKS in Asia Pacific (South). Currently, INVENIO is the only Dassault Gold Partner in Australia and New Zealand to offer Dassault Systèmes CATIA, ENOVIA and the 3DEXPERIENCE platform and a **certified reseller of SOLIDWORKS** in Australia and New Zealand. INVENIO's comprehensive B2B product range makes it the sole Dassault Systèmes authorised reseller in the region to offer the **full Dassault Systèmes product range** for Enterprise, Mid-Market and SMEs.

### **UNITING TALENT WITH TECHNOLOGY**

Getting the right talent is as much as finding the right fit for your organisation. Over the past 30 years, with an outstanding record of fostering positive working relationships, INVENIO has established an extensive network of highly proficient and experienced employees and contractors who specialise in various fields of expertise.

As one of the country's leading providers in recruitment and human resource solutions, INVENIO is able to offer ARTSA members **competitively priced** qualified contractors ranging from Design and Product Engineers to Project Managers, Mechanical and Vehicle Compliance Engineers. More than just ticking the boxes of a job description, our experienced and knowledgeable talent consultants will work closely to connect your organisation with the right talent who will be best at achieving your goals.

Sometimes the best talent cannot be found locally. INVENIO can solve your skills shortage problem by sourcing candidates from overseas under the **Government approved On-Hire Labour Agreement (OHLA)**. INVENIO can sponsor and on-hire foreign skilled workers to your organisation under the Temporary Skill Shortage (TSS) subclass 482 visa.

## **DELIVERING THE RIGHT RESULTS THROUGH DESIGN**

INVENIO recognises the challenges SMEs face in overcoming time-constraints, budget-overruns or shortfalls in expertise. Our **in-house team of design and engineering experts** provide short term project solutions ranging from product development to implementation and end-to-end project management.

## **THE RIGHT PARTNER FOR THE FUTURE**

In the past 30 years, the Australian engineering and manufacturing industries have changed in remarkable ways and will continue to evolve as technology, demand and talents shift. With INVENIO's comprehensive **software solutions and experience in recruitment and in-house design**, we are well prepared to meet these challenges and take your enterprise to the next level.

Connect with INVENIO's expert team to take advantage of **ARTSA member-only solutions** and services and visit our website at [www.invenio.com.au](http://www.invenio.com.au) for the latest updates on products and services.
